

Problem of the Week

Problem A

Flowers for Volunteers

To thank the volunteers at school, the school council would like to give 5 flowers to each volunteer. There are 15 volunteers to thank. You cannot buy individual flowers; they are only sold by the dozen.

- A) How many dozens will the school council need to buy?
- B) If one dozen flowers costs \$10.00, how much will the school council need to spend on flowers?
