

# Problem of the Week

## Problem D

### Repetition By Product

A positive integer is to be placed in each box below.

Integers may be repeated, but the product of any four adjacent integers is always 120.

Determine all possible values for  $x$ .

		2			4			$x$			3		
--	--	---	--	--	---	--	--	-----	--	--	---	--	--
