Problem of the Week

Problem B

Deese Dice are D12s

Dice A, B, C, and D shown below are also known as D12s. A D12 is a 12-sided die with a distinct number from the set \{1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12\} on each side.

One of the four dice above can be made from the net shown below. Which of A, B, C, or D corresponds to the given net?
